
Canela Deck

Canela Deck is optimized to bring the graceful forms of Canela to the “middle sizes”: subheads and pull quotes in editorial layouts, and all but the largest display sizes on the web.

Canela Deck was designed by Miguel Reyes after he saw Canela being used at smaller sizes than originally planned. To keep the grace of the original typeface at smaller sizes, Reyes designed a more robust optical size specifically for smaller display sizes of 20–48pt. Canela Deck is particularly useful for the web, where display type tends to be smaller and Canela can be too brittle.
